

Dear Neighbor:

We are writing to update you on the construction of the Bay Park Conveyance Project. The Bay Park Conveyance Project is a partnership between the New York State Department of Environmental Conservation and the Nassau County Department of Public Works. Western Bays Constructors (WBC) is the design-builder for this innovative Project.

The Project will convey treated water from the South Shore Water Reclamation Facility at Bay Park (formerly known as the Bay Park Sewage Treatment Plant) to the existing Cedar Creek Water Pollution Control Plant’s (WPCP) ocean outfall pipe, which discharges and diffuses treated water three miles offshore in the Atlantic Ocean. Construction involves underground microtunneling within your community. Microtunneling is a safe, effective way to install piping deep into the ground, avoiding long trenches and surface disturbance.

Location of Cedar Creek Shafts 5 and 6

Cedar Creek Shaft 5 (CC5) is located at the intersection of Brookside Avenue and Linden Street, just west of the Wantagh State Parkway. Cedar Creek Shaft 6 (CC6) is located off Lakeview Road, south of Sunrise Highway in Wantagh. As construction continues, we want to give you as much

information as possible. Here's what you should know.

Construction Activity Update:

The next phase of microtunneling activities will soon commence at CC5 and will continue deep below the ground towards CC6. This microtunneling drive is expected to continue through the month of March. Microtunneling operations will take place six (6) days a week, twenty-four (24) hours a day. WBC will not be working on Sundays from 6:00 AM to Mondays at 6:00 AM.

At CC6, crews will continue to prepare the shaft to receive the microtunnel boring machine. A consistent presence of construction vehicles and crews will be present near both shaft sites.

Through a dedicated Community Outreach Program, WBC is committed to a robust engagement process and to maintaining an open line of communication throughout construction. We are also committed to minimizing disruption to neighborhoods affected by construction. WBC's Community Outreach Team will be available to answer questions and act as a project liaison throughout the duration of construction.

For more information on this project element, we encourage you to visit our website www.BayParkConveyance.org and Facebook page [@BayParkConveyance](https://www.facebook.com/BayParkConveyance), and register for [email updates](#). Our Community Information Center is located at 265 Sunrise Highway in Rockville Centre. Please visit our website for hours. You may contact us via the Project's 24/7 hotline at (516) 252-6121 or email us at BayParkConveyance@gmail.com with any questions.

Respectfully,

Margo K. Cargill
Community Ambassador
