

Dear Neighbor:

We are writing to update you on the construction of the Bay Park Conveyance Project. The Bay Park Conveyance Project is a partnership between the New York State Department of Environmental Conservation and the Nassau County Department of Public Works. Western Bays Constructors (WBC) is the design-builder for this innovative Project.

The Project will convey treated water from the South Shore Water Reclamation Facility at Bay Park (formerly known as the Bay Park Sewage Treatment Plant) to the existing Cedar Creek Water Pollution Control Plant's ocean outfall pipe, which discharges and diffuses treated water three miles offshore in the Atlantic Ocean. As part of this conveyance, the Project includes repurposing an existing aqueduct beneath Sunrise Highway, using a technique known as sliplining. Sliplining will occur within your community.

Location of Pit D on Sunrise Highway

Pit D is located at Joyce Field in Rockville Centre on the north side of Sunrise Highway. As construction in your area continues, we want to give you as much information as possible. Here's what you should know:

This week, crews began installing sheet piles at Pit D. Sheet piles serve as retaining walls to support the earth and roadway during excavation of this sliplining pit. Sheet pile installation and supporting construction activities will take place from approximately 9 a.m. to 3 p.m., Monday through Friday. Installation of sheet piles requires heavy machinery and can cause periods of noise and vibration in the areas directly adjacent to the work site.

Pit D is off the roadway and as such, use of the area is not expected to impact the traveling public, but a consistent presence of construction vehicles and crews will be present in the surrounding area. A comprehensive Maintenance and Protection of Traffic (MPT) plan is in place to protect the safety of drivers, pedestrians, and workers near the work zone.

Through a dedicated Community Outreach Program, WBC is committed to a robust engagement process and to maintaining an open line of communication throughout construction. We are also committed to minimizing disruption to neighborhoods affected by construction. WBC's Community Outreach Team will be available to answer questions and act as a project liaison throughout the duration of construction.

For more information on this project element, we encourage you to visit our website www.BayParkConveyance.org and Facebook page [@BayParkConveyance](https://www.facebook.com/BayParkConveyance), and [register for email updates](#). Our Community Information Center is located at 265 Sunrise Highway in Rockville Centre. Please visit our website for hours. You may contact us via the Project's 24/7 hotline at (516) 252-6121 or email us at BayParkConveyance@gmail.com with any questions.

Respectfully,

Margo K. Cargill
Community Ambassador
