

Dear Neighbor:

We are writing to update you on the construction of the Bay Park Conveyance Project. The Bay Park Conveyance Project is a partnership between the New York State Department of Environmental Conservation and the Nassau County Department of Public Works. Western Bays Constructors (WBC) is the design-builder for this innovative Project.

The Project will convey treated water from the South Shore Water Reclamation Facility at Bay Park (formerly known as the Bay Park Sewage Treatment Plant) to the existing Cedar Creek Water Pollution Control Plant's ocean outfall pipe, which discharges and diffuses treated water three miles offshore in the Atlantic Ocean. As part of this conveyance, the Project includes repurposing an existing aqueduct beneath Sunrise Highway, using a technique known as sliplining. Sliplining will occur within your community.

Pit R is located in Merrick, on the south side of Sunrise Highway, east of the Babylon Turnpike between Lansdowne Avenue and City Place. The WBC team continue to troubleshoot and address vibration concerns for business and residents living near Pit R. As construction in your area continues, we want to give you as much information as possible. Here's what you should know:

Location of Pits Q, R, and S on Sunrise Highway

In the coming days, crews will place a hydraulic jacking machine at the base of Pit R and begin installing the new conveyance pipe into the existing aqueduct towards Pit Q, located on the south side of Sunrise Highway, just west of Babylon Turnpike. Following this activity, the jacking machine will be rotated to push new conveyance pipe toward Pit S, located at on the south side of Sunrise Highway, east of the Meadowbrook Parkway between Hewlett Avenue and Wynsum Avenue. The sliplining activities at Pit R are expected to last through early June with additional activities to follow.

A comprehensive Maintenance and Protection of Traffic (MPT) plan will be deployed to protect the safety of drivers, pedestrians, and workers through the work zone and promote reliable traffic flow. Construction activities will take place from approximately 9PM to 6AM, Monday through Friday. While work is underway, two eastbound lanes will be closed, and one eastbound lane will be open between approximately Babylon Turnpike and City Place. Three lanes of traffic will be maintained during the day from 6AM to 9PM. Work hours may be adjusted around Memorial Day to accommodate increased holiday travel.

Through a dedicated Community Outreach Program, WBC is committed to a robust engagement process and to maintaining an open line of communication throughout construction. We are also committed to minimizing disruption to neighborhoods affected by construction. WBC's Community Outreach Team will be available to answer questions and act as a project liaison throughout the duration of construction.

For more information on this project element, we encourage you to visit our website www.BayParkConveyance.org and Facebook page [@BayParkConveyance](https://www.facebook.com/BayParkConveyance), and register for [email updates](#). Our Community Information Center is located at 265 Sunrise Highway in Rockville Centre. Please visit our website for hours. You may contact us via the Project's 24/7 hotline at (516) 252-6121 or email us at BayParkConveyance@gmail.com with any questions.

Respectfully,

Margo K. Cargill
Community Ambassador
